

Notes from meeting of Hanslope Parish Neighbourhood Plan review working group held at The Pavilion on 19 July at 19:00.

Members attending:

Eileen Price

Jackie Cass

Dorothy Courtman

Paul Everington

Andrew Geary

Dezni Grove

John Watson

Apologies: Alison Andrew

Members attending introduced themselves and their connections to the village.

The reason for the need to review the existing plan was discussed and JC gave everyone a copy of the proposed timetable and the table of proposed modifications already submitted to the Parish Council by JC and EP.

JC outlined the course that she and EP had attended led by Neil Homer on 'How to review made Neighbourhood Plans' and the review options:

- Minor modifications to update wording
- Material modifications to delete, update, replace and add new policies that don't change the nature of the plan. *Go to Examination
- Material modifications to replace and add new policies of spatial significance (e.g. new housing or other site/land allocations) that would change the nature of the plan. **Go to Examination/ referendum
- Full replacement for a new plan period with a new schedule of policies some of which may be inherited from the made plan. **Go to Examination & Referendum

One change suggested was to amend policy HAN1 and treat Tathall End like Long Street and have a development boundary but this would be a material modification and change the nature of the plan. It was suggested that Tathall End is protected by the 'open countryside' designation around it but concern was expressed that the settlement could be threatened by the surrounding farmland recently being acquired by developers. AG would talk to residents informally about their feelings on the matter.

We need to publish a modification proposal and a modification statement.

We discussed whether the new plan period should be aligned with Plan:MK which is currently under review. It was not clear what the new Plan:MK timescale is and whether if we stick to the proposed HPNP timetable we would have to review again to include any changes implemented by that. EP agreed to find out from the borough council what stage the review of Plan:MK had reached and what dates the plan period covered to inform our timetable.

DC distributed copies of the existing made HPNP and everyone agreed to look through it and note any modifications they felt should be made and bring their notes to the next meeting. EP agreed to contact Paul Homer to invite him to a meeting and she would email everyone to confirm the date & time of next meeting.
